Brushless DC Barrier Gate

Specifications

Motor Power	100W
Motor operating temperature	-30°C~60°C
power supply	24V8A
Protection level	IP44
Remote control distance	30~50m
Remote control frequency	433Hz
Total Weight	Chassis: 35KG / pole: 5KG
Package Size	Chassis: 330x320x1020mm / pole: 70x120x4000mm
Chassis specifications	320*250*1000mm
Chassis technology	High temperature baking paint for cold rolled plate
Pole specifications	100x45x1.0mm wall thickness
Maximum rod length	6 meters
takeoff and landing speed	3-6 seconds adjustable
color	Chassis corrugated black, door panel silver/yellow/gold
Standard configuration	4 handle screws M10*80, 2 remote controls
